

How to access your Google Drive and **more** from your HOME desktop computer:

1. Open **CHROME** browser
2. **Click sign in** found in the upper R hand corner near 3 dots (see below)
3. Sign in using your **sd.org** account
4. If prompted to sync or link accounts, **agree**
5. It will take about 2-4 minutes or less for all your items to show up.

Once you have done that, you can find Drive, and more by opening a NEW TAB and clicking on the waffle in the R hand corner and click on what you're looking for.
