5. Principal Comments

Overview of Continual Improvement Plan (CIP) We will be going over the data provided to see what areas we need to be focusing on to see improvement in test scores for our school.

Math seems to be an area where our students are struggling, we discussed ways to help them and their parents. Recognizing that many parents don't understand the new math we talked about possibly doing a zoom meeting to help parents understand it and that way they can help their students with work. Another suggestion was to use our Para's in small groups of students to have more concentrated help where they need it.

We would love to see more parent involvement in our school, which asks the question how do we get more involvement? Considering a parent survey asking what they like at our school, what they don't like? What could we do to support student learning? What do parents need or want from the school that would encourage them to be more involved.

2021-2022 Land trust proposal is due 3/25. The council will see the proposed plan and vote via digital means.
