5. Principal Comments

A. Land Trust Money: The website is finally up and we were able to get the reports for 2019-2020 school year in. Due to Covid no end of year testing was done and so we went off of mid-year information. We were able to have some literacy coaching for our para's, 6 teachers were able to attend trainings, leadership and teachers were able to do PLC time during the summer.

Due to Covid, money that was set aside for math specific training, hiring para's and paying for teachers during before or after school programs was not used.

We did purchase 8 new sound systems for use in the classrooms.

We did have to carry over more than 10% of our money due to school closure and salary costs of not paying of para's that were budgeted for before Covid.

In preparing for 2021-2022 school year the bulk of our land trust money will be used to pay for a half day Kinder teach which makes it possible to have a full time Kinder OEK teacher. Entry and exit scores show having that full time OEK teacher, students scores went up significantly. We are also looking at contracting a substitute that will be for our school only.

B. End of year activities. We have been approved to have some end of year activities. There will be a field day done on a grade level basis with station activities set up for their skill level.

5th and 6th grades will have a promotion parade, times are still TBD.
