

Community Council Meeting Minutes 10/11/2023 1:23pm

Attendees:

-Brandy Hamstra-Parent

-Diana Adamson-Parent

Jane McClure-Principal

Jon-guest

Reviewed what we had gone over the previous week- Different modes of communication for parents, and how to keep them best informed.

-Discussed the playground again and different options that may be available to ensure the kids have a safe, secure and more updated playground. There are discussions currently in process with the purchase people. Additional discussion as to what they are doing with some of the closed schools playground equipment, is it possible for us to some how purchase or get ahold of that equipment?

-Discussed the need for one more parent in this group. Crystal knows a dad- E.J Hughes, he is a truck driver so is away a lot, but we can email him to keep him in conversations. El.EL.Hughes@gmail.com.

-Discussed FUS kits that were purchased pre COVID. They are science kits that we have never utilized. Jane to see if there can be some professional development with the teachers so that these kits can be utilized.

-Discussion came up as to pro's and con's of recess prior to lunch and vice versa. What are the possibilities of switching that around so that kids can be more worn out from play, and less chance teachers will go into lunch time, vs play time. Is it possible to switch this around for next year, so that students go to recess first, and lunch second. – Jane said she would take this and bring it up for discussion.

STEAM night planned for next year March 2024- lots of fun projects already planned, and more to come.

Adjourn at 1:40PM
