2017-2018 Course offerings and lessons learned from this year	<ul style="list-style-type: none"> • Low enrolment has worked out but will be very hard if enrollment goes any lower. • Still offering many electives • School is running very smooth, no crowded hallways, students are not late to class, low numbers allows some personal attention. Advisory has been good. 5 by 5 schedule allows electives to continue to be 	

	<p>offered for all student and allows programs to be continued.</p>	
<p>6th Grade Reconfiguration Discussion/Boundary Study</p>	<ul style="list-style-type: none"> ● Steve Hogan came to discuss the boundary study involving the Walker Lane area and the new development in place of the Cottonwood Mall. Many issue came forward. ● Community Council members from the network were in attendance ● Lara Maxfield presented a Walker Lane Movement perspective. ● Overall feeling was that the Community Councils are against changing the boundary and are in favor of adopting the Cottonwood Mall development into Bonneville Jr. high's boundaries. ● Cottonwood Network wants to create and maintain community boundaries ● 6th grade reconfiguration was discussed. ● Concern with Bonneville's enrollment numbers. Okay for now but cannot go much lower ● No general consensus at the time on reconfiguration on way or the other just information gathering. Most are open to further discussion and are looking to see how the Skyline network will do with 6th grade in their Jr. Highs. ● One concern was the early morning bus ride the Arcadia students have. 	<p>Contacting Elementary CC Members.</p>
<p>Play Update</p>	<p>Great participation and attendance. Maybe best ever.</p>	
<p>Other: Student Council</p>	<p>Kym Hunsaker gave an explanation on our new Student Council idea at the school. The Council is in support of this type of program and would be will to look at funds to support it.</p>
