| | <ul style="list-style-type: none"> ● 2019-2020 TrustLands Budget update Council reviewed the plan for the current year with follow-up in the coming months as to what is needed. Our enrollment number come in at 625 which is an increase as to what was predicted. Which put the Bonneville in good shape. We will begin the process of asking teachers who would be willing to teach an extra period and what would work with the master schedule. AVID professional development is still a priority to the school and a great way for teachers to improve the learning in the classroom. Update next month. ● Professional Development Schedule Did not get to. | |
| | <p>The GAPP: Ben Horsley:</p> <p>He explained the use of the seminary building to the Council. Explained it was a temporary alternative placement for some students grades 7 through 12. Has a special education classroom and a regular education classroom. Currently 9 total students attending. Does not have anything to do with Bonneville. The GAPP has its own administration and staff members.</p> <p>Mentioned that this program is planned to be temporary in this building, moving most likely next year.</p> <p>Ben has talked to many neighbors and wants to be as transparent as possible. He would like to come back later in the year and give an update if one is available.</p> <p>Lengthy explanation but good. Bonneville Administration reports no issue thus far with the situation.</p> <p>Discussion about the possibility that the GAPP having their own police officer may be a little much.</p> | |
| | <p>Brag Flags: Tristan will look into this for us.</p> | |
