Went over the Student Health and Risk Prevention Survey for 2017

SAGE Proficiency in ELA, Science and math, Smith continues to stay at the top. Cindy's goal is to get to an A for our school grade.

Do parents have access to this survey?

Kerry Johnson on school board for Granite School District

Answered question about the school bond

Seeking 230 million dollar bond

Our school is part of phase 1.

Why remodel instead of rebuild? It is based on funding, the cost difference, if we had the amount we needed we would rebuild all.

If the school bond does not pass then we have options:

1. We do nothing this is unfortunate for both students and teachers
2. Retry in a couple of years for another bond
3. The longer we wait the more money it will cost if we wait
4. We can only use funding from property taxes to fund this bond

Unclear about the Community Council members-we need one parent to serve a 1 year term

Halloween Parade

Some parents asked, Why do we have to stand outside?

Parking was crazy but if you were early it wasn't a problem.

Parent perspective-if you were early parking was not a problem

There were not any complaints from homeowners in the neighborhood

Christmas parent program

Program is cancelled

Each grade will be responsible for songs that will be online for parents to see.
