

Community Council Meeting Minutes

March 11, 2014

In attendance:	Steve Hogan, Principal Trent Hendricks, Assistant Principal Edwin Espinel, Parent Beth Pasker, Counselor Karianne Prince, Parent Christine Espinel, Parent Kelly Dick, Parent
Excused:	Emily Allison, Parent

Agenda:

•	Enrollment Numbers for 2014- 2015 Nothing solid as far as numbers go now. Steve and Trent are currently working on the numbers for the master schedule. The biggest concern is the 7 th grade students. How do we come up with our projected enrollment? The number of students coming from feeder schools plus the number of students who have applied during open enrollment. We also make contact with Wasatch and Olympus to check on the students who applied at more than one school. Christine Espinel gave some information that she researched on UTA transit for kids coming from the Bennion and Taylorsville area. Info was left with Trent.
•	Trust Lands Determining what to do with the money for next year. It is hard to know if we will need Trust Lands money for teacher salary without having a firm count on our enrollment. Approximate \$\$ for next year is \$35,000. If used it would be the most efficient used for math. The teachers are in agreement with the decision to use Trust Lands on the math program. Steve will bring it up with the faculty again this Friday.
•	SAGES Testing coming up. Teachers have been preparing and working with students on practice tests in the computer lab. Information was sent out to parents via the Charger Chatter regarding information on the SAGE test.
•	Trust Lands Approval Council signed off on the Trust Lands Approval
