

Community Council Meeting, May 13, 2015

In attendance: Janice Flanagan, Daniel Bartholoma, Cassandra Bowers, Becky Vanderbeek, Joan Thompson, Wendy Timothy, Cassie Bowers, Wendee Weight, Christy Olsen (late arrival)

Positives -

Daniel - Barbara Stout is phenomenal

Cassie - Happy summer is almost here.

Becky - Visiting a child psychologist for my child, and hoping to figure out if they have a learning disability.

Joan - Janice is a wonderful principal to work for. The Sage test is interactive and the kids are enjoying it.

Wendee - Is really glad summer is almost here.

Janice - Principal's Meeting today showed that a lot of changes, mostly positive are coming. School-wide breakfast is going to come early next year.

Wendy - Enjoyed the connect assembly. Looking forward to the school play.

Arts Program - The district has contracted with Riverton Music to distribute info and do the music program. We have applied for a grant that might make a difference in how we approach music. We will discuss this further at our next meeting.

Community Council Elections - Note to go out next Thursday with the Thursday note. Will also use email and phone calls.

Snap Map - Cassie reviewed. We had some discussion about some additional signs or crosswalks on the corner of Adams and Washington Road. According to our SNAP map, kids should not be crossing Washington anywhere but on the crosswalk in front of the school. There are also some dangerous things going on with the the Junior a high, but we will let their Community Council address those problems.

Trustlands Funding - We are out of funding to pay aides out of the Trustlands Budget for the rest of the year. Cassie thought that this we not what we talked about happening and was concerned that this doesn't happen again.

Notes from January's Meeting Stated the following:

"We should not worry about going over, because any overage would go against next years budget. We should not count on spending our money in the aide budget, because anything paid after May1 will come out of next year."

Janice said that we are out of money, like we were supposed to be, and we can't start spending next years budget until after July 1st.
