

February 22nd Community Council Meeting

Chris Thomas - Absent

Sabrina Peterson - Absent

Next Community Council Meeting will be March 15th

Next year school plan submitted by the 17 of March.

Next year FTE submitted by the 15 of March

Community Council will need to vote on FTE on the 15th

We need to approve the January Minutes during the March 15 meeting.

Next Years Goals -

Veronica discussed the idea of community council being more involved in the creation of school goals for the upcoming school years.

Goal #2 - Could we move money away from extra chromebooks toward STEM kits that could be used in every classroom, once we have met our chromebook goals?

We need to make all of the teachers in the school aware of what STEM kits and tools that are available to them already in the school.

Veronica asked if there was anyway we could have a parent training on GoMath and Gradebook during the spring and the fall, and if there was anyway students could be assigned GoMath books on a more advanced grade level during the summer. (i.e., a student graduating 3rd grade could have the 4th grade material available for them during the summer before their 4th grade year.)

What are the options for Driggs to get a Science/Math coach in the same way that we have a reading coach?

Is this possible?

Where would the money come from?

Would teachers be willing to incorporate a science/math coach?

Could we use Megan Black more?

Next Meeting

We do not have enough community council members to vote to approve the goals today. We will need to vote on March 15th.

Next Community Council will be Wednesday March 15th
