Absent: Karin Lockovitch,

Call to Order		8:18 AM
Topic	Discussion	Resolution
Start meeting	Karin motion, Josh Second, Principal Hopf Motion	All in favor
Posting agenda and approval minutes		Minutes approved send to Andrew
Review Safe walking plan	Nothing has changed in neighborhood <u>Wasatch Drive</u> Only route for walking with a stroller to school from some locations. Millcreek won't put in sidewalk until safe walking route.	Unclear how to resolve issue.
Data Collection	Discussion of testing and assessment SAGE / RISE testing Principal Hopf was not sure which one will be used but testing will be carried out at end of year The school can compare 18 19, but is is challenging as there are a number of differences as the modes of education shifted dramatically at the end of last year We could find data from peer schools in the district Benchmarks re used at the beginning and end of year. DIBELS/ Acadience (Sp?)	Challenging to find data to support how funds have supported academic initiatives

	<p>Not all teachers were using benchmarks at the beginning of the year.</p> <p>Hard to find legitimate data to use for analysis.</p> <p>Principal Hopf it would be to challenging based on the data available to compare the remote and in person academic achievement.</p> <p>Principal Hopf communicated that very few remote learners are present in most classrooms with the exception of 3rd grade. (1 or 2 in each class are distance learners)</p>
