Principal's report:

MOY data: Christine presented beginning and middle of the year benchmark testing data. The data shows that in general, the student's academic growth is doing well and is on track.

Land Trust Plan 2023-2024

Council discussed using different measures to determine if the CIP goals have been met, The problem with RISE data is that data does not come until the end of the year or when the school year has ended. This does not give teachers any feedback in a timely manner to intervene. Acadience (both Math and Reading fluency) testing occurs 3 times a year, and can provide more timely data. The downside is that there are no Science or Writing components.

Based on the Acadience data from 2021-22 and 2022-23, the Council determined that the Land Trust plan 2023-2024 goals would focus on increasing reading progress. Our Land Trust goal will be "By the end of the 2023-2024 school year, at least 80% of students will make typical or above-typical progress according to their Pathways of Progress goal on Acadience Reading. At the middle of the 2022-2023 school year, 60% of students were making typical or above-typical progress on their Pathways of Progress goal." In order to achieve this goal, the council voted to approve hiring paraeducators. Kris motioned to approve this plan, 2nd by Kathleen. All 5 voted to approve, with one member absent.

FTE: based on projected enrollment numbers, Eastwood will move forward with staffing as it is this academic year.

Open Discussion:

Granite District has partnered with Waterford Upstart to provide licenses for kindergarten students to use during the summer, and for grades 1-3 students who are not yet at the "meets expectations" level.

Janelle motioned to adjourn the meeting 9:10 am, Christine 2nd.
