

Elk Run Community Council

Meeting Minutes

April 8, 2014

Present: Chloe Mooso, Kristine Siler, Amy Winder, Leah Wright, Nick Giles

Next meeting: May 13, 2014

I. Announcements

The School is adding a Math Activity Night 2015, during Back to School night. In-service on CORE, questions and answers for Parents and activities for students. More information to come.

II. Discussion

Council members had a review of SAGE testing information. Teachers will have an evaluation of students before the school year that helps with planning, lightly touched on boycotting of testing in other districts and open discussion on parent concerns.

Concerned parents and council members brought up the sidewalk blocked off for construction in front of Artic Circle on 3500 south 8300 west. Students have to walk out into oncoming rush hour traffic. That issue will be looked into following the meeting.

III. Roundtable

Walking Route: Map to be updated, all council members to walk route individually and we will be submitting any changes to District.

Safe Walking route "tree and leaves" visual awareness activity planned for April 18 2014, with Julie Giles, Chloe Mooso and Kristene Siler to distribute as many leaves as possible before school. The students will put the leaves on tree later that day at lunch.
