

## OBX IS GETTING REMOVED OFF OF NETFLIX?????

By: Anna Duehlmeier

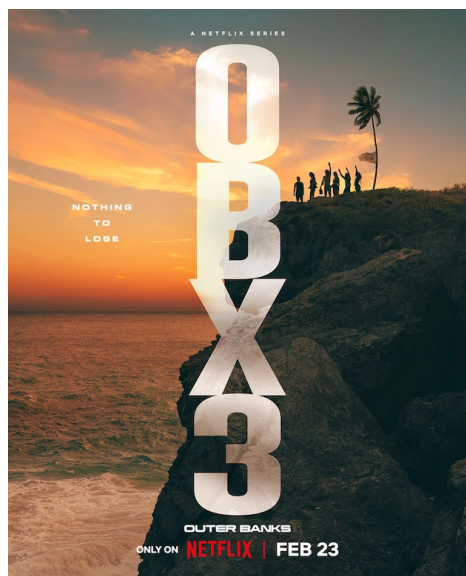

Netflix has officially announced that Outer Banks is getting removed from Netflix because of the language and drug use in it and the gore. April 5th is the last day to watch it before it disappears and no longer has access to it. Outer Banks is a very popular show that has been on Netflix since April 15, 2020 and immediately became a favorite to everyone. Everyone started to watch it and season three this year became a huge hit and is the top show on Netflix at the moment. Everyone loves the young actors that are the characters in the show and may be their celebrity crushes. Adults have watched it and have sent complaints about the things that their teens and kids have seen and heard from that show and now think it's normal to act that way.

Thanks to adults and many other people, now Netflix has no choice but to remove it off of Netflix and still has not announced where the show will be available to watch. OBX then had no choice but to cancel the show and discontinue the making of season four. Half of the population have started to cancel their Netflix subscription because Netflix is taking advantage of it. Many people are devastated about hearing the news and have tried to finish the series before it ends, (I am not suggesting that you should watch it because it's up to you or your parents to decide if you're able to watch it) but if you are allowed to watch it, I suggest you watch it or re-watch it before it comes to an end.

What are some reactions from our local Evergreen Community? **Edie Lelis (8)** says "It makes me so depressed and John B is so hot it makes me crazy."

**Reese Pucket (8)** said "I'm so sad" \*cries\*

And finally **Lola Madsen (8)** made sure to confirm "JJ is mine not yours"

The much anticipated Super Mario Bros. Movie will NOT be coming to theaters

## Mario Movie gets canceled!

By: Dane Kirby

CNN Reports that the new Mario Movie has been canceled. The *Super Mario Bros. Movie* was canceled because fans were angry that Chris Pratt was Mario. Apparently, the studio couldn't find an Italian actor for the perfect role of Mario. The Directors fired Chris Pratt and "All available Italian actors refused the job because they considered it "racism."

**Clark Sierer(8)** says, "That is Crazy."

**Teija LeGrande(8)** said, "Very sad, very unfortunate." Jack Black was devastated by this news and he quit too. They couldn't find a perfect voice actor for Bowser. Christian Bale (Actor in: *American Psycho*, *Newsies*, *The Dark Knight Trilogy*, and more) says, "I think I should be in the role of Bowser, I have such an amazing, soothing voice and face. I'd be the perfect actor." Unfortunately he did not get it because they're canceling the movie.

Charlie Day (Actor in: [Canceled] *The Super Mario Bros. Movie*, *Pacific rim 1 & 2*, and *Monsters Inc.*) was Luigi in the *The Super Mario Bros. Movie*, but left shortly after Chris Pratt left. Charlie Day left and took Seth Rogan (Donkey Kong) with him to retirement. Many fans were shocked at this terrible news. All the Mario nerds were crying when reacting to this.

"I will monke." says **Xavier Pleasant (8)** as he "Dabs on the Haters"(his words).

**Colton Clark (8)** says, "I'd be the perfect role model for Donkey Kong or Bowser. Believe it!!!" It is said that the Anime Club and E-sports club wants to bomb the White House and try and un-cancel *The Super Mario Bros. Movie* for the nerds.

**Jason Fisher (8)** says "According to my calculations if we get the timing perfectly accurate, we will succeed in un-canceling the *The Super Mario Bros. Movie* and I will have the subtitles in Binary Code for my fellow nerds. Believe it!!!"

## The Return of Cutler

By: Reese Puckett and Lola Madsen

Some of you do not know him but those who did will cherish the memory of him forever. We are talking about Wes Cutler, Evergreen Jr High's past principal. Late last year he moved very far away from our beloved school but not from our hearts. He went to Eisenhower Jr High which is located on 4351 Redwood Rd, Taylorsville, UT 84123.

On December 9th, 2022 the Granite School District Board of Education voted to close 2 junior high schools and 3 elementaries. As a result of this change, Millcreek, Twin Peaks and Spring Lane elementary are all closing and Eisenhower and Kennedy Junior High as well.

Granite Education Association President Michele Jones spoke to the board and expressed the association's support to close the three elementary schools. "We laud the effort the district took to educate and collect stakeholder feedback," Jones said. "This hard decision is the right decision."

This change will be starting in the next school year which will be 2023. **Mr. Shaw** (Evergreen Jr High's current principal) will be moving to Granite High School to assist as the vice principal. Since Evergreen will be losing their principal the only right thing to do is to bring back Mr. Cutler. Even though Mr Shaw was a great principal for the one year he was employed here, lots are overfilled with joy that Mr. Cutler will be returning.

Let's hear it from current students at Evergreen about their thoughts.

"W mans, can't wait to see him again, all love for shaw but more love for cutler," says **Cha Wah (8)**

"I love him I miss him I need him back he was the best," sobs **Grace Collado (8)**

"I want him back, but it doesn't really matter since you'll be gone next year and I'm almost done," says **Oliver Ferguson (7)**  
"He reminded me of Vector," said **Remington Reynolds (8)**.

Evergreen Jr High will be experiencing lots of change within the next year so make sure to do the three Es. CAW CAW EAGLES

## Dangerous Rabies outbreak!!!!

by: Edie Lewis

The students of Evergreen should be worried about the critical condition of their school, a Rabies outbreak has been circling around the school but so far only 7 students have been infected.

Rumor has it that this terrible disease started when a young student by the name of "**James Marriott**" who is in 8th grade. According to him, was on a hiking expedition with his family when a Naked Mole rat jumped out of a tree and bit him.

Poor James didn't even know he was coming down with Rabies. As James describes his symptoms he says he has had explosive diarrhea, his hair falling out at a constant rate, his feet turning bright green, and puking out of his ears. This is what some of the students of Evergreen have to say about this

**Mylie Robinson (8)** says "I think James having rabies is really delicious."

**Maya Rawlings (8)** claims "That's really cool bro."

**Tate Allred (8)** says "I don't care, just kidding."

**Lola Madsen (8)** agrees by saying "James drinks choccy woccy but I don't do drugs,"

**Ryan Clawson (8)** says "Darn it I can't date him anymore."

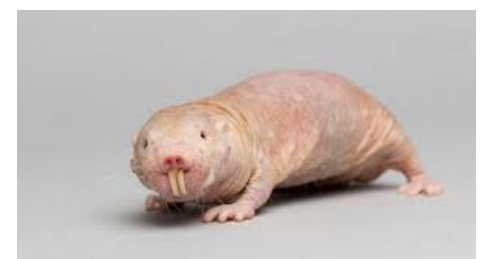

**Stasha Petovic (8)** says "In my intellectual opinion, those who get rabies are those who slurp their feet at night with ramen tied around the toes."

**Aiya Jones (8)** says "Maybe James is the one who gave the Mole rat Rabies in the first place."

Some things you can do to keep yourself from getting Rabies is

1. Wear a mask and gloves along with a hazmat suit everyday
2. Stay away from James Marriot and people who are associated with him
3. Sit across from him in classes
4. And be careful \*\*around wild animals (especially naked mole rats)

Now be safe and make sure you give your condolences to James (Via text or letter so you're not infected) and be careful you aren't taken by the disease!

Naked Mole Rats can be dangerous animals

# Activities

## Evergreen E-Sports Club

By: Clark Sierer

Another new thing in Evergreen is the addition of an esports team. It is being started by **Colton Clark (8)** "I am very excited to start this club. Believe it!" and **Jason Fisher (8)** with the counselor being **Mr. Recan**. They started it, because they wanted an alternative to traditional sports. They found their solution in e-sports, or competitive gaming.

They are looking for new members, but prefer "Epic, alpha male, gigachad, sigma, gamers, that can clutch up when we need them."

You must have a 5th generation console, or a windows PC. Some of the new members include **Luke Hatch (8)**, **Lola Madsen (8)**, **Anna Duhmier (8)**, **Thomas Olson (7)**, **Everest Roush (6)**, **Edie Lelis (8)**, and many, many, more.

**Miles Woodbury (7)**, a member of the club says "as I fulfill every requirement for the club, I'm going to be the star of the team!" Isaying? Of course you don't."

The games they will be competing in are going to be varied. They still have a few more teams that need to be filled. There is a League of Legends team, a Rocket League team, Call of Duty team, Rainbow Six Siege Team, and a 5-D Chess Team With the Multiverse Time Travel team. We look forward to seeing them competing against the other schools' teams, and wish them the best of luck. Maybe we'll get another trophy for the case!

## Disney makes their next big moves

By: Cole Anderson and James Schwartz

Disney has just made some of its biggest investments yet. For starters they have just negotiated and bought the rights to the Harry Potter franchise. They now have all the rights to produce and make money off of anything to do with Harry Potter. They have also announced plans of expanding their empire by buying the big island of Hawaii. They will be converting most of the island into the new Disneyland, however, some space will be reserved for offices and other facilities. They will be renaming the Island of Hawaii to The Disney Universe.

Along with this huge purchase they will be bringing many of the things you see in movies to life. For example, they will be having a build-it-yourself lightsaber station in Star Wars land. You will be using real Kyber Crystals from the Jedi Temple, and these lightsabers are one hundred percent real. The lightsabers will be made from real iron not crap plastic Also, lightsaber training in the Jedi Temple. Many lifesize starships and buildings from the movies will be available to tour, drill outside of the Jedi Temple with clone troopers, and learn how to shoot a blaster. Don't worry they'll be set to stun.

Disney Universe will also have archery practice, and you'll make your own longbow with Robin Hood in Sherwood forest. You'll find out how to get honey out of a bee tree and learn to do nothing with Winnie the Pooh and Friends. Grab a pickaxe and help the seven dwarfs dig through their mine. Heigh ho!

Find out your house, wand, and patronus in Harry Potter World. Meet face to face with the real life teachers (no zoom classes or distance learning at Hogwarts by the way) and even learn a few spells. Learn how to fly on a broomstick and play a game of Quidditch with Madam Hooch. Buy all your Hogwarts supplies and maybe even a pet in Diagon Alley. Have a friendly duel with another wizard or witch while you're there too! Definitely check out Hogsmeade where you can buy butterbeer and some questionable items from Zonko's Joke Shop. Watch out for the Biting Teacups!

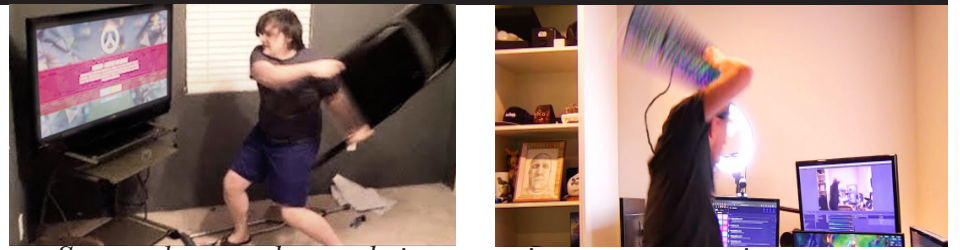

Meet Jack Sparrow in Pirate's Cove. You'll learn how to sword duel with him and Will Turner. You can sail the Black Pearl with Jack and his crew. Also, you'll learn how to live like a pirate!

Very close to Pirate's Cove will be the real-life Jurassic Park! Yes, Disney will be bringing dinosaurs back to life. You'll get to go on the tour of the park just like the movies. However, Disney will make sure that none of their employees are going to turn off the electric fences. However, you still have to sign a form of consent just in case.

There will of course be the famous Spaceship Earth in Epcot. With Mission Space being in the center of everyone's attention. Will they decide to put the classical ride into their new investment?

Marvel will obviously have some of the old rides and many new ones. You can meet all of the Avengers and fight with them in an epic Virtual Reality experience!

**David Clawson (8)** says, "It will make the island so much more fun!". This is all the info Disney has released so far. The Disney Universe will be an amazing park when it is finished in 2040! It will only be 150,000 per person for a one day pass! They will be releasing more updates in June of 2024.

*eSports players take out their aggression on unsuspecting computer consoles*

## A New Evergreen Sport?

By: Lowluh Madsen

This sport has recently become America's top favorite sport. It gained popularity on the social media platform Tik Tok. An unknown person by the username of @toesarecute posted a video on January 19th, 2023 with they show off their school district's tow wrestling matches. This specific video has gained millions of views and others follow. **Easton Zito (8)** has seen the video and claims "Toe wrestling is better than football,". Wow thats a strong opinion Easton.

It shows an intense moment when two thirteen year old boys are toe wrestling for the district title. It gained interest by many people all over the world and soon people wanted to know more about it. Toe wrestling also known as dog fighting was made an official sport in 1976. The World Toe Wrestling Championship has been held annually since 1994. Toe wrestling is similar to arm wrestling. To play, players must take off their shoes and socks as the game is played with bare feet. Players must connect toes and each player's foot must touch flat on the other person's 2 out of 3 rounds. Rounds are played first with the right foot, then left, and right again if necessary. Some people may find it disgusting but others may find joy in it. In the 8th grade lunch room/dance room on March 3rd our very own Evergreen Eagles hosted a championship. The winners of this tournament were **Reese Puckett (8)** and **Eden Lelis (8)**. Lots of people were gathered around, eager to watch while others stood in the corner very disgusted. Some parents think that this should become an official Granite School District sport and it was brought to the attention of the superintendent, Richard Nye. Richard states that "Toe wrestling might just be what this district needs to bring all of us together,". Starting next year at Evergreen Jr High will be the start of our toe wrestling team. Everybody is allowed to join and of course **Coach Harwood** will be overseeing it. Some people are a little bit skeptical about this new sport coming to Evergreen, such as: **Andrew Gatorex (8)** "I am a little scared for toe wrestling season, I feel like lots of people will get super competitive and be super judgmental about the dawgs being out," but others like **Leah Urban (8)** says "I think it's very smart and people will enjoy it," are thinking more positively about this new sport. Let's all hope that toe wrestling is as much fun as everyone thinks it will be! CAW CAW

*Toe Wrestling will be making its big debut at Evergreen soon*

## School Has Been Canceled?!?!

By: Taylor Ethington

A few weeks ago, Mr. Shaw, the superintendent and the Granite district board decided to cancel school starting on April 3, 2023. They have received many reports about students being stressed and overworked and thought it would be better to start summer early to benefit the students. They haven't had the chance to send an email to the parents, but right now they are trying to make sure that it will work with the parents' job schedules. The counselors have been privately interviewing students to see what would help them cope with their stress and 93% of students said that if they didn't have to worry about school, they would feel much more relaxed.

Many people in the granite district board of education are against this decision but Mr. Shaw and the Administration here at Evergreen feel that it is in the best interest for the students. According to Study.com, "children who are already under stress have significantly greater chances of committing suicide." Ending school early would be beneficial to students to give them a break before the transition to high school. After I asked her how she would feel if school was canceled, Lucy Mayfield (8) said, "That would be awesome!" This has been a long debated issue but it has settled as the school board ultimately came to a decision. Even though this has been a controversial topic for several months, most of the staff has ultimately decided that this will be the right thing to do for the students as they prepare for high school.

## New Black Panther Dies

By: Kimball Johnson and Reilly Truong

We are all sad about Letitia Wright/ the New Black Panther's passing. As the new movie *Black Panther: Wakanda Forever* came out less than a year ago, the death of Letitia Wright is all over the news. Letitia Wright was only 29 years old when she suffered a heart attack in her house in England. She was rushed to the hospital after her mother found her on the ground. The doctors tried everything to save her heart, but after a very long fight Letitia Wright sadly died. She died on 4/1/23 this is about 2 and a half years after Chadwick Boseman died due to cancer. Letitia Wright was born on October 31, 1993 in Georgetown, Guyana and died on April 1, 2023 in London, England. Letitia Wright started acting when she was just 16 years old. The first time she appeared on TV was in *Top Boy*. She played the role of Chantelle. Her appearance on TV changed her career forever. After she appeared on TV she then played a role in the Drama series *Chasing The Shadows*. For the next 12 years of her acting she appeared in at least 15 different movies. She was most famous for her role of Shuri in the *Black Panther* movies. Her movie acting career started when she was casted as the lead in *Urban Hymn*. Her role in *Urban Hymn* led Hollywood to recognize her as a talented actor. A movie that Letitia Wright has been in that many people may not know is *Sing 2*. She played the role of Noosh. She also earned a series of awards throughout her acting career. They are: EE Rising Star Award, 2 Black Reel Awards, British Independent Film Award, 2 Image Awards, Screen Actors Guild Award, Teen Choice Awards and The BAM Award.

This is a very inconvenient death. Right after the famous Black Panther/Chadwick Bowseman died Letitia Wright/Shuri had to take the role as the new Black Panther. Then at the end of *Black Panther: Wakanda Forever* Shuri told her nephew when she dies he will be the next Black Panther. Continuing their royal bloodline. This fits in with *Black Panther* storyline. It is all part of Marvel's plan to kill off all of the actors and bring new ones. This allows Marvel to continue to make more movies around new characters and attract more audiences. If this is truly Marvel's plan will the next Black Panther die too? If so, how many more Black Panthers will there be?

## School is now Extended

By: Reese Puckett and Carli Howick

As a result of the snow days and the many teacher work days and student recess days that have been issued by the Granite School District, there has been a decision to "make up" for the missed time they will be adding an additional 14 days to the school year. Which puts the date for the official end of the year on June 16, 2023. Adding these days is a mandatory solution for many schools including Evergreen Jr High, Olympus Jr High, Wasatch Jr High, Churchill Jr High, Olympus High School, and Skyline High School.

According to an article Granite School District posted:

Attendance for these days is mandatory and will count for tardies and absences. These extra days will include important assessments in every core class. These assessments will prepare students for their future education. These assessments are required for everyone and opting out is not an option. The assessments will help make up for the lost learning days and better our students' opportunities.

Homework will also be given for every class regardless of the subject (including homeroom periods or advisory periods) to ensure that the students will understand the material and take their classes seriously. The homework should take about 45 minutes per class. Homework may not be worked on during school hours. They must be completed by the following day or the student will be given a zero and turning homework in late is not available. "Redo's" are not available. The strict protocol is necessary to ensure the students get the best of the educational experience at schools in the area.

"Make-up" times are no longer available at schools during the added extension, such as "Eagle Time" for Evergreen Jr High. Study halls at other schools are also no longer available. Students will now get a grade in homeroom and advisory. Free periods (Such as teacher aides, office aids, home release, etc.) have been replaced in all students' schedules with extra classes for extended learning opportunities. Failure to complete these strict regulations will result in having to repeat the current

(School is now Extended, continued)

grade you are in.

We hope you will all understand the need and importance of this change.

Staff and student input has been gathered and considered carefully. The reactions from the Evergreen community all seem to follow the same line of thinking, expressed by **Lucy Mayfield (8)** who says, "I think it is CRAP."

Unfortunately, the rules and regulations cannot change. Everything listed above is final and permanent for this school year.

**Mrs. Bardsley** said, "At this time, I currently feel that extending the school year will not be beneficial to the staff or students." As stated previously, regulations will not change.

**Mrs. Fitzgerald** says, "I'm crying." Sorry for the unwanted changes, but they are necessary.

We hope that everyone understands and follows the new schedule and regulations. Enjoy the rest of your year students.

If you would like to read more on this topic visit the following website: <https://sites.google.com/granitesd.org/granite-schedule-changes/home>

## Changes to the 2022-2023 Middle and High School Schedule

The School Year Will Be Extended By 14 Days.

The new official end date is June 16, 2023.

## New Harry Potter Movie!

By: Maren Allred and Jordan Thornton

The Harry Potter franchise is well known among many. Whether you have watched the movies or read the series or maybe even both. The characters are easy to connect with and the plot is engaging. The story follows three young wizards through their seven years at Hogwarts School of Witchcraft and Wizardry and their struggles facing the dark arts. If you haven't seen or read it then you probably should. There are 8 movies and 7 books following the main stories with some other spin offs. Including the *Fantastic Beasts* series and the *Cursed Child*.

Not many people know but late in the year of 2023 there will be a prequel movie explaining the backstory of the potions master Severus Snape. This movie will be called *Always* (If you know then you know. No spoilers here.) This movie will go through Snape's last few years at Hogwarts and bring deeper detail to a less known character. Along with his connection with the marauders and some students.

Most of the cast has been picked, so we have a basic idea of some of the main characters. Severus Snape will be played by Adam Driver. Lily Potter will be played by Emma Stone. Finally the marauders will be played by Andrew Garfield (Moony), Dylan O'Brien (Padfoot), Joshua Bassett (Prongs), and Jacob Lofland (Wormtail). Even if you don't know these actors you could tell just by the looks of them that they fit the roles perfectly.

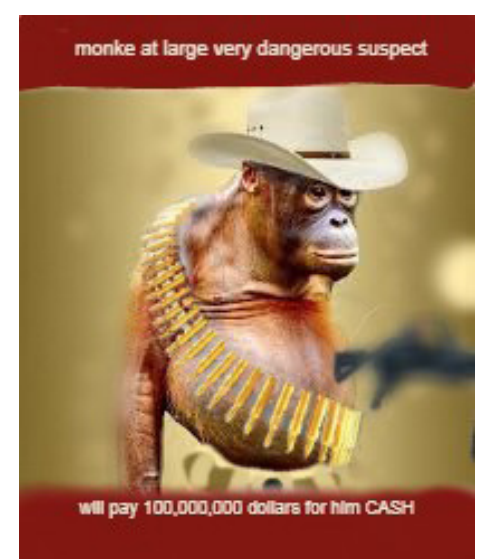

Of course the end of the year could not come any slower for Harry Potter fans. But the wait will be worth it for when this amazing movie comes out. Hopefully many questions about Snape's dark and mysterious past will be answered at last.

## MONKE

By: Xavier Pleasant

It is said that this monkey has been at large for three years, nobody has succeeded in catching him so far. Authorities are baffled as he continues to elude capture.

He is wanted for three counts of arson, and twenty war crimes. He has killed over 320 million people if you see him call this number: 801-870-3162. Thank you for your cooperation and help with this matter. If you have any information please call or text the number, the fate of the world is depending on you.

Be wary of an at large dangerous Monkey

# Et cetra

## Changes in Mountain Biking Rules

By: Erica Parrish

Mountain biking has become a growing sport here in Utah. High school mountain bike teams have been organized into 6 regions. Each region has 5 set races at different locations. 3 of the races everyone on the team is allowed to race in, the fourth is high school only, and the 5th is the state championship.

Lately the people who run Nica (National Interscholastic Chocolate Association) are questioning the safety of the junior high kids at races.

They have been assessing the risk of fire, drinking the choccy woccy and safety.

They have decided that it would be better to not let junior high kids be on the team. Some of the race courses are in hot dry places so the possibility of fire is great, and the last thing they want is people being in a dangerous place. They need to downgrade the crowd so that the chance that a fire does start they have less people to evacuate. Also the JD (junior high kids) division is always bigger than expected, with some of the beginner, and intermediate boys races having sometimes 70+ kids. This can cause a huge risk of safety because with more people starting the more likely there will be collisions and injuries and a loss of choccy woccy.

Although they know that these kids love mountain biking, a solution has been formed. A new division will be formed just for junior high teams that will only complete rides, and not compete in races. There are other races they can participate in such as the MidWeek Series, I-Cup, etc... The focus of the mountain biking program in the high school is instead shifting to the students "officially" on the team. The argument has been made that the kids who are in junior high will eventually get their chance to shine. They also say that they can still take part in races, but just not Nica races.

The news of this decision hasn't formally been announced but has been told to several of the coaches of these teams. Some are shocked, some disappointed and others are downright angry. They want everyone to be included, and able to join the team. Here are what some of Evergreen's students have to say about this.

**Claire Carter (8)** said "I

## Mountain Biking Con't

don't do biking but I have friends who do so that's too bad."

**Jordan Thornton (8)** says "Okay, well that sucks I guess."

**Lola Madsen (8)** agrees by saying "I don't do mountain biking but I drink choccy woccy. Dont do drugs kids"

I agree with Claire. It really sucks and my sympathy goes out to all those who are still in junior high who are on the team.

Olympus High School Mountain Bike Team

## Celebrities Unexpectedly Die

By James Marriott

Many celebrities spontaneously died last week. Some of the celebrities included Madelynne Cline, Chase Stokes, and Dwayne Johnson.

Last week The three of them were hanging out on the set of the hit Netflix show, *OBX*, and then in the middle of nowhere a whole mile of pure astroid blew up the set of *OBX*. It was so sad but they are all with us in our hearts.

The funeral will be hosted on the day of the season finale of *OBX* but still only special guests are invited to attend in person. Just go to the website [obx.com](http://obx.com) and all of the details are on that website.

Netflix has announced plans to continue the show but, there will not be a season four, unless they add a plot twist where Madelynne Cline and Chase Stokes die.

Dwayne Johnson on the other hand was a very big blow to the world. He has been a role model to man. There are many people who loved the movie *Black Adam* and there will sadly not be a sequel. Dwayne Johnson's funeral services will be in Salt lake city, in the back field of Evergreen Junior High.

## The Legend of Zelda movie!

By: Leanna Twining

Because Nintendo has been such a success with the *Super Mario Bros. Movie*, they will be making a movie about *The Legend of Zelda*.

Nintendo has plenty of material to draw from for the storyline of this movie. The games in this series (in no specific order) include the original one (NES), *A Link to the Past* (SNES), *Ocarina of Time* (Nintendo 64), and *Wind Waker* (GameCube). Some more games are *Skyward Sword* (Wii), *Twilight Princess* (GameCube and Wii), *The Minish Cap* (GameBoy Advance), *The Four Swords* (GameCube), *Majora's Mask* (Nintendo 64), *Phantom Hourglass* (Nintendo DS), *Spirit Tracks* (Nintendo DS), *Link's Awakening* (GameBoy, it can also be found on the Switch), *Oracle of Ages and Oracle of Seasons* (GameBoy Color). There's also *A Link Between Worlds* (Nintendo 3DS), *Triforce Heroes* (Nintendo 3DS), *The Adventures of Link* (NES, GameCube, and GameBoy advance), *Breath of the Wild* (Switch and WiiU), and *Tears of the Kingdom* (Switch).

The movie will be about the main story of the Legend of Zelda. All the games somehow piece together the story; There is a young girl or woman whose name is Zelda (sometimes she is young, sometimes she is older). She wields the triforce of wisdom, and she is usually a princess. There is a young boy or man named Link (sometimes he is young, sometimes he is older). Link sometimes does not know that he is a hero and that he wields the triforce of courage. The evil Ganon (he wields the triforce of power) or some other evil thing captures Zelda. Zelda calls Link for help. Link goes on a quest to defeat Ganon or the other evil thing. These characters all live in a place called Hyrule. In his quest to help Zelda and Hyrule, he gathers a variety of items that will help him defeat their foe.

Some of these items include bows and arrows, the Master sword (the sword that seals the darkness), and the Hylian shield.

The movie is just in the pre-production stages and will be coming out in April of two thousand, twenty-five. I don't know who will be acting out the characters, but the movie will be animated. It's gonna be AWESOME!

## The Switch of Elden Ring

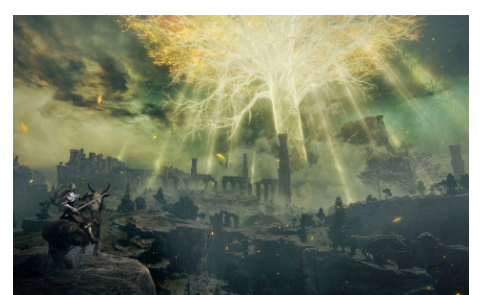

By: Kaya Plotkin

As many students may know, last year Fromsoft released their most ambitious game yet-- *Elden Ring*. *Elden Ring* is an open-world role playing game in which your quest is to become the lord of the Lands Between. It has been viewed as one of the best games to be made, and won 2022's Game of the Year award. Sadly, on April 13th it's being switched to Playstation 4 only.

Due to how popular *Bloodborne* made PS4, and a deal made with Fromsoft, they're now making *Elden Ring* PS4 exclusive.

Anyone who bought the game on Xbox, or Steam will no longer be able to play it. There may be an account-switching mechanic where you can transfer your characters over to a PS console, but that still doesn't take down the cost of a new PS4/PS5. On average, a new PS4 costs around \$300, with an older one costing around \$200. A new PS5, on the other hand, costs around \$550, with a used one costing around \$450. A bonus for buying the PS5 would be that you would also have access to *Demon Souls*-- another PS exclusive soulsborne game.

A possible solution for this is that you could sell your now unneeded computer/xbox for a PS console, and perhaps other inferior games you own on said xbox/computer. As an owner of *Elden Ring* (on PS4) myself, I do not find this to be remotely troubling. Imagine being a lesser human, and ahem, tarnishing the glorious game that is *Elden Ring* by playing it on anything less than a PS console? For shame. Anyway, this has been the monthly news report.

*Elden Ring* soon to be available on only PS4
