

Farnsworth Elementary Newsletter

February 5, 2019

Greetings from Farnsworth! We hope the new year is going well for everyone. We can't believe the school year is halfway over! We just finished our mid-year DIBELS reading tests and we are happy to report that we are steadily improving as a school. Please remember to support your student's literacy goals by having them read at least 20 minutes a day. Ask about your student's reading goals at our upcoming SEPs.

Lego League

Congrats to our Lego League team who qualified to go to the State Competition this year held at Weber State! They made various presentations on how they would keep astronauts on long missions healthy. They also built and programmed a robot to compete against others from various schools in a Robot Games Competition. Congrats again to **Morgan Allen, Ayden Pineda, Romerick Anderson, Isaac Hopkin, Lohgan Fah, Mike Campos, Jonathan Elmer, Carson Farnsworth, Sambra Kay, and Allie Hopkin!** A special thanks should go to Ms. Cooper, Ms. Congram, and Ms. Wilkins for all the hard work they put into Lego League. You guys are the best!

Science Fair Success

Two 6th grade entries into the Science Fair were chosen to move on to the district competition this year! Romerick Anderson and Isaac Hopkin worked on a project called "Ready Set Play," in which they tried to figure out if higher resolution in video games drained battery life faster than lower resolution. Tyler

Peterson's project entitled "Mess Monster" was a construction that could be used to pick up small messes like Legos. Great work guys!

Smart Smiles

Smart Smiles will be here on Feb. 7 and Feb. 21. If your student is uninsured and needs dental care, please turn in the paperwork that has been sent home or contact the main office to get registered. If your child is insured, the hygienist will still see them, and your insurance will be billed. Please take advantage of this service!

SEPs

Please go to our website to schedule an SEP for your student if you haven't already. We are always so pleased with parent turnout every time SEPs come around. Thank you for investing in your student's education by attending these important meetings with teachers!

4th Grade Ski Day

Unfortunately, our annual 4th Grade Ski Day had to be rescheduled due to weather concerns. Please look for information coming home that will detail when the it will to be rescheduled.

Upcoming

February 6 Arts Assembly
February 11 Fund Raiser Assembly
Feb. 12 and 13 SEPs
February 15 & 18 NO SCHOOL
February 20 Community Council
