

Fox Hills Elementary Community Council Meeting
March 14, 2019 9 AM Community Center Relo

In attendance:

SCC members - Teri Daynes, Chantel Olsen, Kylie Jones, Nicole Porter, Stephanie Orphanakis, Vanessa Park, Katie Clark Excused - Dalana Huff

Community members - Mitzi Bingham, Holly Snow, Brenda Shamo, Jeff Walton, Sherry Talbert, Nicole McDermott

Welcome by Kylie Jones

February minutes approved

Discussion of safe walking routes - Kylie is working on a letter to Taylorsville City Council to get a crossing light approved for 4000 W and Zodiac - Kearns is on board but they were told by Taylorsville that they aren't willing to help . Nicole told us that Taylorsville has approved it. Since it seems that there is some miscommunication between the involved parties we will try to see if the district can help facilitate the communication so that we can keep this moving forward.

Land Trust Amendment discussion

There may be some extra money this year that we need to spend. We are double checking our records with the district's projections.

We approved moving \$2000-\$3000 to get more reading program enhancement materials (book bags, Diad reading, Tower of Books, etc.). We will also put some money into technology to buy portable document cameras to go with laptops and purchase headphones.

2019-2020 Land Trust plan

The council looked at the tentative plan that Teri presented. As we are looking at losing some teachers next year, we would like to help fund a half a teacher to help keep as many teachers as possible. We will fund paraprofessionals, leadership conference, PBIS incentives, ½ a teacher, fieldtrips, reading program incentives, a stipend for teachers to attend Fox Night to give parents information about reading and math goals for the year, and technology. After some discussion the plan was approved.

Staffing plan for next year

With our numbers going down we voted to approve 3 Kindergarten classes, 4 first grade, 4 second grade, 1 second/third split class, 3 third grade, 4 fourth, fifth, and sixth grade classes (these include the magnet classes too). This will include paying for ½ FTE from Trustlands.

Everyone needs to reply to the email to get their E-signature for helping with the plan.

6th grade reconfiguration discussion

Taylorsville network held and informal informational meeting which should be on facebook. We were told that some of the schools are pushing to move in that direction and that there is some interest from Kearns Junior. We voted to send a letter to the district requesting a meeting. We will also send this to the other feeder schools to let them know we have sent it.

Other:

The last day of school will probably still be on Thursday - it will not be affected by the "snow day"

We might be able to keep Mr Smith and the art program we have now. The district is looking at realigning the schools that are paired up so we may keep our program another year or we may need to change.

The Bangerter/6200 S project is moving along. They will soon be working on the aquaduct movement - then later the overpass will be put in.

We adjourned at 10:18. The next meeting will be 4/11/19.
