Last year the school used the Nearpod program that the teachers were able to work on with their classes according to their schedules. It seemed to be a good fit

Proposed and approved to use the Nearpod program again this year with the commitment of it being done in individual classes at least 1X each month with Teachers needing to report in some type of tracking program that it has been done.

Diana to talk to Jen the schools STS to help create something to help our teachers with this.

With the substitute shortage it was discussed to hire a .5 teacher as a floating sub. to fill in where needed. Or possibly waiting until January to hire an interventionist full time. We voted on using either of these as options and it was passed with 6 votes as yes as 2 members were absent.

Using \$1500 towards reading rewards was discussed and is still a possibility in the future.

Meeting adjourned at 9:30 AM
