We are no longer pulling money from Lands Trust to pay for the substitutes while teachers are working with the district for training. Natasha needs more money to run the take home library. The money from the substitutes can now be turned to hiring for the take home library. 2 new people will be hired and will work in the afternoon. They will be responsible for the 1st and 2nd grades and Natasha will pick up all the books and do 3rd grade.

The school was highlighted at the state capital. Students and teachers went before the Education Appropriations Subcommittee to ask for funding for the 7 habits to be in all the schools.

We will pass the Lands Trust movie around and everyone can watch it at their convenience.

We still need a recess duty.

Mtg. is adjourned. 4:25 pm
