8. Meeting adjourned

H.B. 213 Safe Technology Utilization and Digital Citizenship in Public Schools

Each public school, in consultation with its local school board, shall establish a school community council at the school building level for the purpose of [but not limited to]:

- safe technology utilization and digital citizenship; and
- provide for education and awareness on safe technology utilization and digital citizenship* that empowers:
 - (A) a student to make smart media and online choices; and
 - (B) a parent or guardian to know how to discuss safe technology use with the parent's or guardian's child; and partner with the school's principal and other administrators to ensure that adequate on and off campus Internet filtering is installed and consistently configured to prevent viewing of harmful content by students and school personnel.

To fulfill the school community council's duties a school community council may:

- partner with one or more non-profit organizations; and
- create a subcommittee.

*"Digital citizenship" means the norms of appropriate, responsible, and healthy behavior related to technology use, including digital literacy, ethics, etiquette, and security.
