Questions/Discussions:

- Teacher to student accountability to log in daily. Parents only hear when it is bad 1-2 weeks after the fact. Issue when parents log into the parent portal they can see all the assignments and due items in Canvas, but they cannot see anything in google classroom.
- Put specific dates on things in canvas
- Canvas link to google is not enough information
- Teachers required to update grade weekly
- Synchronous- otherwise there is a disconnect and the students don't get the scaffolding.
- Access to a Chromebook to give remote access because it is locked.
- Teach for teachers to create videos (Larry willing to help)
- 1 Dedicated distance teacher like elementary ruled not an option.
