- a. Online how is it going? More resources, teacher office hours being put up, student success rate is not good. Better than the spring but not good. Starting a new process with the counselors to check in with kids if they haven't logged in for 2 weeks.
- b. Office hours are on Canvas for each teacher
- c. Parents don't have access to google classroom, but the district would like secondary teachers to use Canvas so that problem will go away.
- d. December 8<sup>th</sup> meeting items need to be sent out 10 days in advance to approve
- e. Email minutes to the council as well as post on the granite park website.
- f. One concern is students walking in the street after school and not using the crosswalk. They are walking in front of cars, blocking traffic, and it isn't safe. Going to work on reinforcing the behavior and what the expectation is that we want and then going to granite pd if need be after that. Going to give kids a chance to follow the rules first.
