Registration: GTI Application (signed by parent)

Class Times: 2-period block

Length: Semester

Fees: Lab fees required

Do you enjoy the challenge of solving a mystery? Explore a career in medical forensics. Employment of forensic science technicians is expected to grow by 19 percent from 2010 to 2020. Competition for jobs will be strong because of substantial interest in forensic science. Get ahead and establish a strong foundation for college programs.

This semester course is designed to create an awareness of the branch of health science relating to medical forensics. This course focuses on introductory skills and assessment in order to develop the ability to identify, analyze, and process logically using deductive reasoning and problem solving. Medical forensics involves many aspects of health science instruction including laboratory skills and safety, microscopy, toxicology, measurement, physical evidence identification, pathology, anthropology, entomology, psychology, photography and career exploration. Participation in the HOSA youth organization will be an integral part of this course.

Granite School District is committed to providing educational and employment opportunities to students without regard to race, color, sex, religion, age, national origin or disability in accordance with Title VI of the Civil Rights Act of 1964, Title IX of the Educational Amendment of 1972, Section 504 of the Rehabilitation Act of 1973, the Age Discrimination Act of 1975, and the Americans with Disabilities Act.
