Course Description

This course is designed to take fundamental concepts and technologies used in web development such as XML, XHTML and create more sophisticated web sites. Focus will be on completing team web based projects by incorporating multimedia, JavaScript and Java Applets. Student will analyze different web designs and use more complex web tools that may include other technologies such as mobile devices. This class will maintain a real world website and be responsible for providing new content and functionality.

Pathways:

- Web Developer
- Mobile Web Developer

Granite School District is committed to providing educational and employment opportunities to students without regard to race, color, sex, religion, age, national origin or disability in accordance with Title VI of the Civil Rights Act of 1964, Title IX of the Educational Amendment of 1972, Section 504 of the Rehabilitation Act of 1973, the Age Discrimination Act of 1975, and the Americans with Disabilities Act.
