

New Deadlines: Concurrent enrollment students are responsible for completing their own SLCC application and registration. Although we understand that many people assist students with the registration process, it is ultimately the student's responsibility. Attached you will find the deadlines for this school year.

Please be advised that the following deadlines are hard deadlines.

As always, if a student has a registration issue that is out of their control we will work with those students after the deadline to get them registered. All other students need to be moved to another class, except in the case of mixed CTE classes in which case they will not receive college credit.

2020-2021 Registration and Benchmark Deadlines:

***Benchmark:** Is not the same as a deadline it is a tool to assess if the student has time to complete the process before the deadline. Our recommendation is, that if a student has not been admitted, sent their test scores, or paid their small balance holds by this date they moved to another class.*

Fall 2020

Benchmark for Admissions, Test Scores, and Small Balance Holds	September 4, 2020
Registration and Drop deadline	September 11, 2020
