Best Technology Jobs

We use technology more than ever these days to stay connected to our friends and family, get up-to-date on the latest and greatest happenings in our world and sometimes just to pass the time. With all the computers, tablets, smartphones and other high-tech devices our society is dependent on, we need the skills of professionals in technology jobs to make our obsession with tech possible. The Labor Department predicts that tech jobs will grow faster than the average for all jobs at a rate of 12 percent this decade, but it's not just hiring demand that makes this industry one to watch. U.S. News' nine Best Technology Jobs of 2016 are also high-paying jobs that boast low unemployment rates.
