

MEDICAL TERMINOLOGY

Medical Terminology is a class that teaches you 350 medical work parts that when combined make thousands of medical works, and over 400 medical abbreviations. This class is excellent preparation for any classes or careers in the medical field- you will have to learn these terms eventually, what better place to start than the GTI? Fun videos, review games and activities are all part of the curriculum. It's a fast-paced class and you will learn more than you thought possible.

Medical Terminology is required for CNA, Pharmacy Technician, Medical Assisting, Physical Therapy Assistant, and Emergency Medical Technician. It is recommended for Forensics and Dental Assisting.

Topics Covered

- Disease/ Disorders of the human body
- Skeletal System
- Cardiovascular System
- Muscular System
- Endocrine System
