Land trust money was allocated to provide classroom aides and technology support for students (chromebook replacement and subscriptions to educational programs).

4. Student safety--(10 min)

a. COVID protocols

Lunchroom tables are cleaned in between each grade level students hands are sanitized as they enter the lunch room.

In the classroom hands are being sanitized when students enter the classroom and desks are sanitized when students leave.

b. Before/After School procedures

Parent concern- After school pick up procedures

Cars are parking in the drop off zone, this then causes cars to have to back up to get out causing an unsafe situation for students and families.

Pauline will send out the video that was made last year that shows what drop off and pick up procedures look like at Hillside.

Discussion Topic-

Having teachers outside in the morning to help monitor students.

Council believes that teachers should be inside preparing for students before school starts, not outside monitoring students. Will discuss this again at a later date.

Safe Technology and Digital Citizenship

5. Principal Time—(10 min)

a. General Communication

How are things going with clasdojo and text message communication? Is it enough?

Communication is good, an email every once in a while with more detailed information would be nice to have.

Pauline will look into having both parents receive text messages from the school.

b. Q&A about what is going well thus far and areas for improvement

Parents like the clasdojo messages from the principal.

6. Community Comment Time—(10 min)
