Trust Lands Balance – Jeff Sillito – \$96855.58

Monies need to be spent by April, input from committee.

There were many ideas of ways that the money could be wisely spent to help our students. They included:

- Chrome books (especially for testing windows)
- ACT prep
- More teachers certified to teach concurrent enrollment
- Math labs (already being held during the day and math teachers are available after school and are willing to help any student, regardless of their teacher)
- Instruments for orchestra/band students (can't pay through trust lands)
- PSAT more available (offered in the fall, not expensive to take)
- Sterling Scholar fees reimbursed
- More publicized information regarding scholarships, etc. (We're trying more email contact as phone calls are being ignored due to a couple of unfortunate precedents this year)
- Computers to replace two "thrown together" computer labs

Comment Time:

- 1) The traffic flow (and lack thereof) in the front of the school as soon as school is dismissed was discussed. There have been several ideas that have been tossed around and we are hoping that the Mountain View Corridor may help with our traffic flow issues.
- 2) The Mountain View Corridor was discussed. They are wanting some parents to be on a committee that will influence the pay of the contractors. We had three parents volunteer directly from or associated with our council – Ms. Davis, Ms. Allred, and Mr. Olschewski. They are asking them to pay attention to how the area looks and call in any concerns as well as attend meetings which have not yet been set up. There are still a lot of unanswered questions associated with the corridor.

Next Meeting – February 16th, 2016 (Tuesday)

Adjourn - 5:45PM
