Comment Time:

Cindy Davis brought up to the Council the fact that proposals are being put forth to add 6<sup>th</sup> grade to the Junior Highs in the Hunter network. Parents who are interested and have an opinion need to make their feelings known to their local elementary Community Council.

Esther Olschewski brought up some concerns about some of the members of the faculty and their attitudes toward students who are seeking their help to solve problems and situations that matter to them and their education.

The teachers on the Council suggested that contact first be made with the teacher in question and that the parent address the issue with the teacher before going to administrators with a problem.

Next Meeting –Monday, March 19, 2018 @ 5:00 p.m.
