Minutes from January were approved unanimously

Trust lands Balance: \$40447.54

New Business:

1. Assistant Principal, Eric Bailey gave a construction update. The completion date is still slated for July 1. When the all-clear is given, there will be a walk-through to determine any items that needs to be fixed, and they will be immediately fixed. After completion is signed off, the furniture will be moved in. At the end of July, teachers will move their items into the classrooms. Currently, the 36 teachers that know they are moving, are packing up their personal items. At the end of the school year, these boxes will be stored in the cafeteria. Teachers will sign up for times at the end of July to have their boxes delivered to their new classroom for them to unpack.

The addition, to be called "W" hall, has 12 classrooms, 2 labs, 1 maker space (which is a smaller "flex" classroom that is reservable), 2 break out rooms with 6-person capacity, 2 conference rooms, 1 office with 4-6 person capacity, a learning stairs which is like a small amphitheater for presentations, student bathrooms on both levels, and a faculty room.

Also part of the school improvement is new softball and baseball towers. They are each being built behind the backstops and will be 2-stories. The lower level will be for storage, and the top level consists of announcer booth, speakers, and a sound system. The storage and bathroom located on the football field was demolished for the new "W" wing, and is now being rebuilt on the west side of the field. This building will have separate storage areas for soccer, tennis, and football. There will also be restrooms, and a concession area. Debris from the demolition and new wing has damaged the tennis court, and there is talk of getting it patched or what temporary fixes can take place.

"A" hall reconstruction is moving long ahead of schedule. Once construction is finished and all teachers are relocated, the portable classrooms in the back of the school will be removed. One relocatable will remain as the "Wolverine Den" with student supplies. It will be moved to a more visible location in the far southwest corner, so as to be seen from both 4100 south and 5600 west. Moving those building will free up parking for the students. There is consideration for designating parking in the back for teachers, for those teachers whose classrooms are located on the west side of the building.

2. Christine Straatman
 - a. A Safe walking route has not been determined, as it is not required for high schools, but there is one in the works. Considering the recent occurrence of a Hunter High student kidnapping

and assault, there is concern that students do not have safe walking routes home. After the assault, Ms. Straatman was contacted by the Smart Foundation about possibly presenting to the students some topics of safety and self-defense.

3. The School Plan was discussed. Clarification to wording will be added and there will be a vote at a future meeting.
4. A reminder was given about the Townhall meeting with Superintendent Martin Bates next Tuesday, Feb 25, 7-8 pm.

Proposals:

1. Professional Development- Art: Art Education Conference (Poitevint \$280) Unanimously approved
2. Professional Development- POP: Pacific Islanders to meet U of U admission (Tupea \$120) Unanimously approved
