Counseling Center Message

To all of our students that may be struggling or stressing out about graduation, the end of the year, or may be worried they won't make it, remember this...

- You are not alone
- You got this
- Stay the course
- You are enough
- You matter
- Keep going
- One day at a time
- Your mistakes do not define you

College and Career Readiness Meetings

Students, for many of you this year went by very quickly. As we say goodbye to a wonderful class of seniors, the rest of you enter into the next phase of your journey. Life goes fast and you have many great learning options and learning opportunities that are offered through Granite School District. As we prepare for the coming school year, think about what academic and career interests you would like to explore next year. When we get back to school, we can talk about it and formulate a plan.

Attendance - Historically, school attendance falls off after spring break. Lack of attendance, especially for seniors, puts students in jeopardy of failing classes. Seniors that fail any quarter four class that is required for graduation, will not be able to participate in graduation and will need to remediate the credit during summer to earn their diploma.

Missing School = Missing Out

Credit Recovery - Seniors, if you need credit recovery, do not delay in talking with your counselor about how to make up credits so you can graduate. The last day to begin credit recovery is May 10th.

Not sure if you need credit recovery?

TALK TO YOUR COUNSELOR!

Summer School

Summer school offers students a way to make up credit, earn new credit, and to work towards earning their drivers license. Registration for online summer school begins April 8. Included is a link to the summer school information and the parent consent form.
