

KEARNS HIGH SCHOOL

MEMO NO. 56

August 2010

SUBJECT: Prayer in School

The Board of Education has refined their policy on prayer. The Granite School District has reaffirmed its policy on public prayers. Simply stated, "there should be no prayers given in school, recited or allowed in classes, assemblies, student activities, school sponsored athletic events or any other similar activity. In addition, no district or school employee shall encourage students to or discourage students from participating in private during any such school sponsored activity."

Employees who violate the school and board policy of permitting prayer in school functions will receive disciplinary action.
