Additionally, Ms. Loo would like some feedback regarding your opinions on Digital Citizenship Training for our students. The intent of the legislation requiring this training is to involve School Community Councils in an on-going discussion about creating a safe technology environment for students. In the past we have used a NetSmartz presentation, but the District is looking at other options due to the restrictions we are facing. Please respond to this [short survey](#) regarding possible future plans for this type of presentation.

Please let Elizabeth Slick or Ms. Loo know if you had any additional concerns that you would like addressed at next month's meeting.
