# Power Washing Chromebooks

Be sure to focus on this process until complete. If a button is not pressed within a few seconds, it could go into a state where you have to have a recovery flash drive.
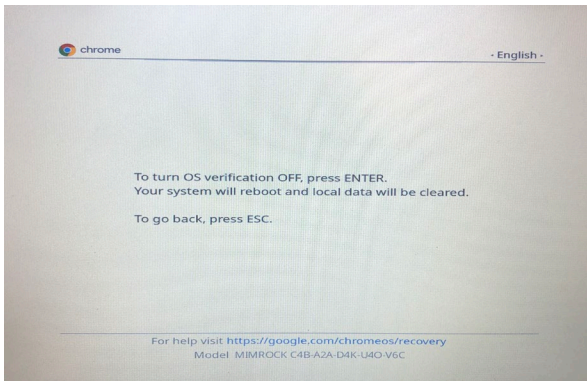

1. It doesn't matter at what state the Chromebook is, just hold the **esc** + **refresh** + **power** buttons down at the same time for a few seconds and let go

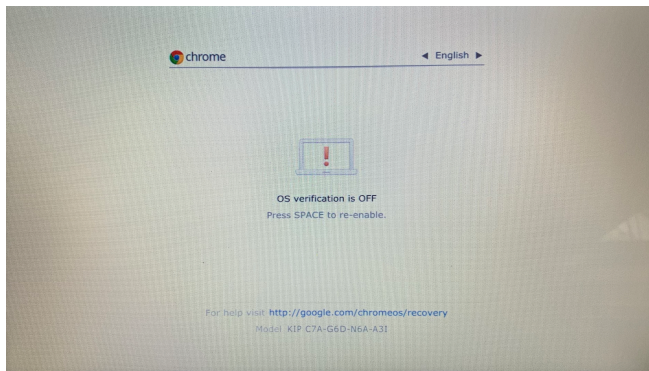

2. On the "Please insert a recover USB stick or SD card" screen, press the crtl + d keys

3. On the "To Turn OS verification OFF" screen, press the **enter** key

4. On the "OS Verification is OFF" screen – press the **space bar**

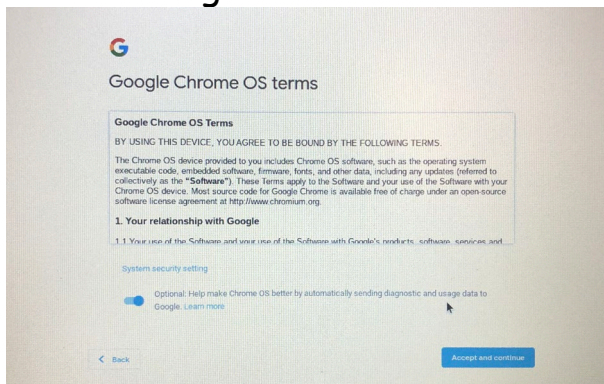

5. The Chromebook will reboot

6. On the "Welcome" screen, press **Let's go**

7. Choose the **GSDGuest** network enter the password: **learning**, then press **connect**

8. On the Google Chrome OS terms screen, Press **Accept and continue**

9. You will see a progress bar and then the "You are enrolled successfully" screen, press **Done** and then **Next**

10. Chromebook should be ready for a new user to sign in.
