We are excited for school to resume for the upcoming 2020-21 school year. We look forward to seeing all our students and families.

What will school look like in the fall?

There is not an easy answer to this question; the situation is fluid, flexible and continuously evolving. We are following health department guidance and recommendations. For all students in grades 1-5, school will begin on Monday, August 24th. Our focus is to have all students back to a "normal" schedule here at school on August 24th. This will include distance learning being available to students and families that are not yet ready to come back to school in August. Distance learning is a tool that we use to improve accessibility for all students now.

Safety

Health department guidance for face coverings and social distancing will always be followed inside the building. All school employees will wear face coverings. Students will also wear face coverings. (Provided by the school) In the classroom, all desk will face the same direction and be moved to allow as much physical distancing as possible. Visitation to the school will be limited to school employees. Families are able to pick up and drop off students as well as items and make appointments with teachers and administrators.

Cleanliness

Students will not share materials. Hand washing and hygiene will be taught and reinforced with all students. High- touch surfaces will be cleaned throughout the day, every day. Classrooms and common areas will be sanitized multiple times throughout week.

Distance learning

We understand that during this global pandemic some families and students are not yet ready to come back to school. Distance learning will be available for these students as well as to all students. All teachers will have a parallel track of distance learning available. We will be sharing this information with all families.

Please continue to check our website and the Granite website for updates.
