

## Week 13 Study Guide

Ambiguous	You can understand and interpret information in more than one way. *Things might have more than one meaning. (*Amphi- is an Ancient Greek word that means 'both' and 'around'.)
Constant Variable	This never changes, just keeps on happening (it can be an unknown value, though) This has a value that can change. It is represented by a symbol, usually an $x$ , that represents what we don't know. These are the opposite of each other.
Effort	You use a lot of energy & force to do some work, achieve a skill, get an understanding... Hard work beats talent when talent won't work hard.
Percent	You make a fraction with 100 as the denominator, so it represents 'how many' out of 100. What's a denominator?
Property	In math, these are the tools in your mathematical tool box that help you solve your mathematical puzzles. They are the basic rules, the basic devices of math. A few of them are: commutative, associative, distributive, identity... In English, we use this word to mean everything we own; the land and the buildings on the land, and stuff we have. It also can mean the distinctive characteristics that define a *thing; idea, object, entity, fact, action, deed...
Sent Cent Scent	You use a delivery service such as USPS to mail a package This equals one penny - 1/100th of a dollar Smell, aroma, perfume
Specific	You say exactly and precisely what you mean. Sometimes you make a list that has particular details. You take us through the steps.
Tolerant	We are willing to allow for different styles; to put up with someone who is different. We accept and allow differences. You act in a fair way toward those people who have a different opinion, or race, or religion, or nationality; you have freedom from racism. Tolerance lets you be friends even when you look different.
