Dawn Hauser reviewed the Land Trust and updated the council on the funds spent and the funds that remained. There is extra money that was not used in the budget that will need to be allocated for use somewhere else. Where those funds will be spent will be discussed at a later date.

Robin Larsen introduced the next item on the agenda, which was clarification on the rules of what constitutes a quorum in regards to School Community Council and voting on proposed agenda items. After reviewing the bylaws for school community council it was found that at least, half of the members from the School Community Council need to be present to constitute a quorum.

Successes: Matheson's performance of Alice in Wonderland was a huge success. The Tiger Den is proving to be very successful in motivating students to perform well both academically and behaviorally.

Concerns: Improving crosswalks and safe walking routes for students, faculty and school patrons.
