

## School Community Council Minutes

Minutes: November 27, 2017

Present: Dawn Hauser, Tara James, Cindy Thomsen, Robin Larsen, and Jill Hinckley, and Karli LaMar

Cindy Thomsen called meeting to order at 3:30

Dawn Hauser motioned to approve the minutes from the September meeting. The motion was seconded by Robin Larsen.

Officer Greg Hollenbach, Matheson Jr High's school resource officer addressed the council about how effective our students and faculty were evacuating the building during a fire drill. It was discussed possibly having all students evacuate to the north field but the decision will be made on a later date.

Robin Larsen introduced the School Community Council training videos which the council watched. The videos covered the council's job descriptions and duties that we are to complete during the school year.

Dawn Hauser reported on the Land Trust update and the funds that have been used thus far in the year.

Cindy Thomsen then discussed from a parent's point of view the bond that was voted on in November for the district and how it will impact the Magna Community.

Dawn Hauser discussed the next item on the agenda about the boundary changed proposal which was postponed meaning the students at Gerald Wright Elementary will continue to fee into Matheson Jr High.

Matheson Jr. High is being accredited this year and the faculty is creating a mission statement for the school that aligns with Cyprus High School's mission statement.

Successes: Library Activities are going great and the students are really enjoying those activities.

Concerns: Lack of Law Enforcement presence in the community. Lack of parent involvement in the School Community Council.
