

## January 2023 Community Council Meeting Minutes

-Council agreed and approved on the purchase of new document cameras for our teachers. We already have tech in our plan and would not need to do an amendment. With this purchase, and new paras hired, we should be close to our 10% carry over limit, but will watch and discuss later if need be.

-Members liked having the Christmas concert with the parents. They asked us to consider a sing along for the school to see in person next year and not virtually. This way, students can watch their siblings sing live.

It was explained that 5/6 didn't sing and did the drumming instead due to student interest. We had very few who sang during rehearsals.

Council would like classroom teachers to add a song next year and not rely solely on BTS to sing one song.

Council also would like us to play music or keep kids on stage just a moment longer for pictures, so it doesn't seem as rushed.
