3. Welcome Janelle. Discussed field days, etc. ok for school. Good as long as it's socially distanced. We also had a brief discussion on what school may look like next year.

Summer reengagement: Two teachers working the first four weeks of summer for K-2 students. Students in yellow or red would be able to come in for extra support.

We also discussed how the school board is looking at school size and whether some schools may be closed. Population size and building remodel needs will go on the list of potential boundary changes.

Construction is doing well. The workers are doing as much "noisy" work until next Monday. They will not be doing the loud stuff in the mornings for the testing windows.

RISE starts next Monday.

Auschel motioned to adjourn. Christine seconded.
