

WHAT IS DUAL LANGUAGE IMMERSION?

Dual Language Immersion (DLI) is a free educational program available to students of all backgrounds and abilities. It is a way for students to learn regular academic content while acquiring another language at the same time. Elementary students in DLI programs typically have two teachers: one who instructs in English, and one who instructs in a target language.

The two teachers collaborate with one another and divide the academic curriculum between English and the target language. Students spend half of their day learning in English and the other half learning in the target language.

Dual Language Immersion begins in first grade and continues through junior high and high school. Students are guided toward academic achievement, bilingualism, and cross-cultural understanding all throughout their experience in the program.

Your Child Can Learn *Another Language* Through Dual Language Immersion

DUAL LANGUAGE IMMERSION

LANGUAGE SUCCESS

There are 12 elementary schools in our district that offer Dual Language Immersion in one of three world languages:

Granite District follows the Utah Dual Language Immersion model. Instruction is designed to continually increase student language proficiency in reading, writing, listening, and speaking.

“When it comes to language, there’s no such thing as starting too early.”

-TIME Magazine
The Power of the Bilingual Brain

The Elementary Dual Language Immersion program lays the foundation for advanced language classes at both junior high and high school levels. At the secondary level, students build global competency and learn how their language skills can be applied to careers.

UNIVERSITY BRIDGE PROGRAM

After passing the AP [Spanish/Chinese/French] Language and Culture Exam students have a direct path to upper division college language courses. These students can earn credits that are accepted at seven Utah universities as elective credit and in some cases may be used towards a language minor.

“This is a gift that Utah is giving its children. A gift that you really can’t get any other time or any other way.”

-Dr. Myriam Met
Director, National Foreign Language Center
