College Goals

I am interested in going into education to support students' academic and social emotional development. Volunteering with the afterschool program has given me further determination to achieve this goal and I hope to continue giving back to my community after high school. I really enjoy getting to know the students on a personal level and supporting their educational needs. If possible, I would also love to continue my athletic journey by participating on the track and field team at the collegiate level.

Academic Successes:

GPA: 3.87

AP Classes and scores if applicable:

- AP Geography - 5
- AP World History - 3
- AP Statistics - 4

Concurrent Enrollment:

- English 1010 CE
- Art 1050 CE
- Math 1050 CE

Extracurricular Experiences (Clubs, Athletics, Internships, Performance Groups, and Hobbies)

FCCLA: Fall 2023 - Present

I have participated in FCCLA all four years of high school. I am currently the president of the group and have organized numerous events to increase awareness and participation within this club, including organizing a bake sale to fundraise money to allow us to go to the local competition. This experience has really shaped my outlook on leadership and how important it is to foster kindness within a group of people to increase participation and belonging.

Track and Field: Spring 2023 - Present

I have participated on the Olympus High School Track and Field team for the past years as a distance runner. This experience has taught me how to participate on a team, and how important it is to do your best not only for yourself but for the benefit of the team. I currently hold a state record for the 800 meter and on track to letter by the end of the season. I plan to continue my athletic journey in college and continue to push myself.

Volunteer Experience:

After school Program Group Leader: November 2024 - Present

I have been volunteering at Olympus elementary school for the past three years mainly supporting 4th graders with their homework. As I am interested in working with students and being in the education career field this was a opportunity I could not pass up. Through volunteering here I am gaining invaluable knowledge of working in a classroom environment such as classroom management skills, lesson planning, and making accommodations for students with different learning styles.
