January 12 1:30 meeting called to order.

- Safe walking routes - neighborhood at corner of 3500/64th- can we get a route to school, Crista will bring it up in meeting with the program.
- Parking gate - At this time, there is nothing else we can do to get the city to open this gate. For now, we will let it be.
 - Possible solution to drop off line congestion is we make a right turn only out of the parking lot, Uturn by the gate. This would possibly keep kids safer when crossing to get to the playground/fence while also keeping the line of cars moving.
- Review current plan - On track for the most part. Social skills goals need to shift. New social skills program is being implemented.
- Upcoming school plan- draft coming in February.
