Dr. Prescott addressed and reviewed the SSAP from 2012-2013 school year. We met the 1% dibbles increase goal as well as our math goals. The teachers will meet on Friday and set new Math and literacy goals for the SSAP.

Dr. Prescott would like us to look and provide feedback or ideas to help the elementary children be involved in the College and Career Readiness section of the SSAP. Kim Kunz suggested a program offered through the PTA and will follow up with Dr Prescott with more information from this program. Desiree Jones suggested BIZ town through Discovery learning at the Gateway.

We would like to figure out ways to get the parents more involved and have an understanding of the Community Council. As a way to educate and encourage the participation we will be sending home notes with report cards that will talk about what Community Council has accomplished. The first note will go home 11/6. We will welcome our reelected members, explain the work we are putting in to the SSAP and explain how the trust lands were spent.

The Community Council parent members will work on the Parents and community action steps. The Community Council teacher members will work on the math and literacy goals.

Each school is required to now have a bully prevention plan. Pleasant Green has had a plan in effect since 2009. Dr Prescott is working on including the newly required Cyber Bullying portion to the plan.
