

Community Council Minutes Tuesday January 13, 2015

Attendance: Dr. Prescott, Jessica Mecham, Jason Woodhead, Sandy Bowen, Holli Meza, Laurene Hauter, Sara VanRoosendal, Adrienne Tupou.

Questar Gas: A representative from Questar Gas came in to speak with us about the gas line that runs in front of the school. He reassured us there was nothing to worry about and went over how the company tests the line and keeps the public safe. A new evacuation route was discussed in case of an emergency.

Reconfiguration: Meeting dates were given on the proposed reconfiguration of Brockbank Jr. High and Cyprus High. No new news since our last CC meeting to report.

Lunch Program: It has been brought up to change the current lunch agenda from Lunch then recess to lunch after recess. It was decided it would not be a good idea to go ahead with this plan and it may cause more conflicts in the lunch area and with schedules.

Calendar Campaign: We discussed the proposed Calendar options that will go into effect for the 16-17 school year. The calendar being implemented can be found at www.graniteschools.org/district-calendar.

Safety Concerns: Dr. Prescott wanted to address the safety concerns that the staff has been having. Preschool is located in the back of the school, thus leading to a lot of in and out from unknown guests. The protocol will change to have the Preschool classes enter and exit through a door closer to the classroom and parents can sign in and out at the door so they don't need to enter the building. In the event they do need to enter, all guests must acquire a visitor's pass. This goes for all school guests and not just preschool.

Next Meeting will be Tuesday February 10, 2015 at 2:00 PM
