HEAD INJURY POLICY **Full agreement available in the office and on GSD website*

By signing, I hereby acknowledge that I have reviewed and understand the information in the Head Injury Policy Guidelines, and that I have been advised, cautioned, and warned by Granite School District about the inherent risk of injuries associated with participation in physical activities and sporting events, as that is defined in Utah law, and which includes but is not limited to physical education class, traditional education class, recess or other activities where injuries are likely to occur. I am fully aware that participation in such physical activities and play exposes students to the risk of injury, ranging from minor to severe, including but not limited to: **sprains, fractures, partial or complete impairment of limbs, brain injury, paralysis, and even death.** I understand that teacher instruction, protective equipment, and medical care provided do not eliminate these risks. I have addressed any questions or concerns with teachers or other school officials. Having been so cautioned and warned, it is still my desire to allow the above named student to participate in physical activities and sporting events, and I do so with full knowledge and understanding of the risks involved.
