

Dear Parents and Guardians,

This year, as you may have heard, we will be implementing a new grading system called Proficiency Based Grading. In order to keep you informed about this new system, we will be having presentations available at Parent Teacher Conferences on Monday September 24th and Tuesday September 25th at 4:30, 5:30 and 6:30 each night. These presentations are about 30 minutes long, and explain the implementation of proficiency based grading. It is highly recommended that you attend a presentation with your student.

In addition to these presentations, our conferences for grades 4th – 6th will be student led. This means that you will not need to sign up for an individual conference time on the online scheduler. This also means that your student will be leading you through information/items given to them by the teacher that they would like your child to review with you. The teacher will be available to you for further questions after your child has completed their tasks. If after conferences, you feel the need for a private meeting with the teacher, please email your teacher to schedule a meeting. More information about what your student's conferences will look like will be sent home to you through your child closer to conference time.

Sincerely,

The Pleasant Green Elementary Upper Grade Teams
