

Community Council 9.17.20 Meeting Notes

In attendance:

Principal Koehler, Marian Behunin, Shawna Myers

Report on money spent in 19-20

We spent all but \$3715 in the 19-20 year on a teacher salary. This years budget is \$59897.

Report on SEP Virtual conferences:

Each teacher is working to meet with parents either by Zoom, Google Meet, phone, or email. Concerns are for parents who need translators, and having the bandwidth to handle all those calls at the same time.

Report on Distance Learners/Face to Face Learners:

For this first term, we have about 30-35% distance learners.

Report on FTE (teachers per students) for 20-21 year:

We lost a Special Education teacher because we didn't have enough students. We gained a 1st grade teacher who will work with Distance learners. We are waiting to hear about a 5th grade teacher and a contract substitute.

Other concerns:

We discussed ways to connect with students and parents without being able to have in-person meetings.

We discussed ways to find more people for Community Council. One idea was to have teachers think about that during SEP conferences and invite parents to join.
