

## Community Council 12.16.21

### Our plan for this year:

*This year we have \$61,302*

*\*we are using the money to pay for a teacher to help lower class size. This year, it is in 3<sup>rd</sup> grade.*

### Our 3 school goals:

1. 65% of students in grades K-5 will make average or above average progress on Dibels by the end of the year.
2. 65% of students will make average or above average progress on Acadience Math or 80% of students will be proficient at basic math calculations
3. At least 40% of students will meet their WIDA target goal.

### Priority standards for math:

Each grade level has worked together to choose the most essential standards/skills in math. They also worked with the grade level before and after to make sure that the standards were consecutive.

### Covid information

We are still doing all the safety measures that we did last year. We have more students in the school, so it is hard to social distance, but we are doing the best we can.

**Next meeting: January 21, 2022**

**We need to start planning for next year...**

<b>K</b>	<ol style="list-style-type: none"><li>1. I can count and write numbers up to 20.</li><li>2. I can add and subtract numbers from 1-10.</li><li>3. I can put together and break apart numbers from 1 to 10.</li></ol>	<b>3rd</b>	<ol style="list-style-type: none"><li>1. I can use place value as I round numbers to the nearest 10 and 100.</li><li>2. I can add and subtract up to 4 digit numbers with regrouping.</li><li>3. I can multiply and divide within 100.</li></ol>
<b>1st</b>	<ol style="list-style-type: none"><li>1. I can add and subtract to 20, and easily remember math facts to 10.</li><li>2. I can add and subtract to 20 many different ways.</li><li>3. I know that 2 digit numbers have a value of 10s and 1s.</li></ol>	<b>4th</b>	<ol style="list-style-type: none"><li>1. I can multiply and divide 4-digit numbers by 1-digit numbers. I can also multiply 2-digit numbers by 2-digit numbers.</li><li>2. I can identify and work with fractions</li><li>3. I can identify factors of whole numbers to 100.</li></ol>
<b>2nd</b>	<ol style="list-style-type: none"><li>1. I can add and subtract numbers in word problems.</li><li>2. I can identify and understand place value in multi-digit numbers.</li><li>3. I can add and subtract within 20 using mental math.</li></ol>	<b>5th</b>	<ol style="list-style-type: none"><li>1. I can add and subtract fractions with unlike denominators (bottom number).</li><li>2. I can divide fractions and I identify that a fraction is a numerator (top number) divided by a denominator (bottom number).</li><li>3. I can multiply a fraction.</li></ol>
