Conclusions	Connie will work on it again to try and resubmit. Sandra said we would probably be safe to go on and order the Chrome Books.

There was a discussion on the computer typing program. Questions were asked about the effectiveness of the program. Some students are reporting that the keyboarding program is not engaging. The program is www.typing.com. The program offers reporting on how the students are doing. Ms. Velasco. Question was brought up if the course has help increase the SAGE scores. It was not known if they helped in SAGE scores. It was suggested that an incentive be added on for students who show improvement in testing. Discussion	Staffing 2017-2018
------------	--------------------

With a new community coming to our school, we will have a bus and approx. 100-118 new students coming to our school. Connie presented the CC with 4 different scenarios. Scenario A would require 24.5 teachers, Scenario B would require 23.5 teachers, Scenario C would require 24.5 teachers and Scenario D would require 25.5. Our number as of allotted FTE would be 23 teachers. Each scenario would require that we find funds to pay for the extra FTE.

Conclusions	Connie will need to make the final decision prior to the next Community Council meeting, so she will email community members with final thoughts. Some community members agreed that they would like to stay away from splits if possible.

The teachers at Rolling Meadows are also included in the discussion of staffing for the next year. Their input will be considered prior to making a final decision.
